ECO-PIGMENT
INK

Ink Consumption

November 2023

Summary

This presentation illustrates examples of ink consumption across different designs when printing with Eco-Pigment on an Optimum Digital NirvanaBelt printer.

The designs are classified in three categories: light, medium and dark coverage, with ascending ink consumption.

Under each design we have specified the type of material the calculation was made for, as the ink consumption of a design may vary slightly when using different profiles for different substrates.

All estimates are for 720 x 720 DPI in 4-pass printing.
